

Prayer to Remove Dark Multidimensional Influences

I call on Source Energy, my Higher-Self, Angels, Archangels, Guides, and Ascended Beings and all Avatar Master Souls in this Universe of the highest light and resonance to hear this prayer. I call upon a column of bright white-gold liquid light from the core of the sun, created by archangels of the sun to flow down around me and through me. A column of vibrant liquid light to infuse me at every layer and level. Infusing every chakra. Infusing every cell of my physical body. Infusing into every layer and level of my energy fields. I ask this column of liquid light be securely anchored into the core of Gaia.

I call on Source Energy, my Higher-Self, Angels, Archangels, Guides, and Ascended Beings and all Avatar Master Souls in this Universe of the highest light and resonance to hear this prayer. I reject all darkness, I reject all interference in my energetic space and upon my timeline of the highest light and resonance. I request an immediate removal of any and all dark interferences, any earthbound souls, demonic and satanic presences, fallen beings, and any other dark presences from my space and energy fields. Clear them from this space completely and utterly multidimensionally, taking them to their own dimensional space far from my own.

I call on Source Energy, my Higher-Self, Angels, Archangels, Guides, and Ascended Beings and all Avatar Master Souls in this Universe of the highest light and resonance to clear and remove any dark openings, dark vortexes, any dark portals in my energy fields and personal space. Closing, sealing and removing any and all such spaces with light.

I call on Source Energy, my Higher-Self, Angels, Archangels, Guides, and Ascended Beings and all Avatar Master Souls in this Universe of the highest light and resonance to remove any and all dark energies, dark interference, dark intent, dark malice, dark projections, dark magick, dark attachments such as dark cords and threads, and any dark etheric

devices including blocking and tagging devices in my energy fields. Clear them completely and utterly multidimensionally, dissolving and destroying them as necessary.

I call on Source Energy, my Higher-Self, Angels, Archangels, Guides, and Ascended Beings and all Avatar Master Souls in this Universe to clear and remove any and all dark presences, dark energies, dark interference, dark malice, dark projections, dark attachments from my home, workplace, modes of transport and any other spaces connected to my reality they may occupy. Restoring a connection to all such places to the highest levels of light and resonance within this Universe.

I call on Source Energy, my Higher-Self, Angels, Archangels, Guides, and Ascended Beings and all Avatar Master Souls in this Universe of the highest levels of light and resonance to assist me in filling my physical body, my energy fields and all aspects of my reality with light. Filling any and all void spaces with light.

I call on Source Energy, my Higher-Self, Angels, Archangels, Guides, and Ascended Beings and all Avatar Master Souls in this Universe of the highest light and resonance to intensify the column of bright white-gold liquid light from the core of the sun, maintained by archangels of the sun. Protecting me and uplifting my core vibration as I go about my day.
